**Re: Notice of Classification**

Dear Mr. Petillo

The New Jersey Transit Corporation (NJ TRANSIT) has received and reviewed your firm's prequalification questionnaire and has determined its classification according to the type of work and amount of work on which it is entitled to bid as follows:

**Type(s) of Work:                    HC – Heavy Construction GC – General Contractor**

**Rating/Amount of Work: "O" - \$10 - \$15 Million**

The above classification has been assigned after consideration of your firm's technical, management and financial abilities as evidenced by the information contained in its completed prequalification questionnaire.

The classification shall entitle your firm to bid on any work within its specified class for a period not to exceed eighteen (18) months, at which time a renewal of classification must be requested.

Please note that award of a contract to your firm will not reduce its rating with regard to subsequent bids and awards during the eighteen (18) month classification period. Your firm's bonding capacity will govern its total bidding capabilities.

NJ TRANSIT reserves the right to revoke or revise this classification at any time.

If your firm is dissatisfied with the classification assigned to it, it has the right to submit additional evidence to justify a different classification. In this event, please contact the undersigned for further information.

Sincerely,

Brian McShea  
Senior Contract Specialist  
Procurement Department
